THE LAUNCH PLAN / GERMANY → MALLORCA

FOIL & SAIL

New adventures await.

A sailing yacht. A small crew. Mallorca.

01 / THE PERSON

He wants the adventure. Someone else can handle the organising.

Munich. Outdoorsy. Earns well. Around 40 and above; German-speaking. With teenage children making their own plans, he is ready for a holiday solo or with his partner.

02 / THE PRODUCT

Sail. Foil. Explore. Everything taken care of.

A premium Mallorca sailing holiday: sleep aboard, learn e-foiling with expert instructors, share meals and explore with a small, like-minded crew. Travel to the boat excluded.

Proposed pricing: €4,000 single cabin / €7,000 cabin for two.
Why trust us: founders with sailing, e-foiling and charter experience.

Meet Markus.

“Can I do it? Will I fit in?”

Let him experience the answer close to home.

03 / THE BOLD IDEA

First flight here. Next stop, Mallorca.

Recruit through **introductory e-foiling lessons in Germany.** Start in Munich; Hamburg and Berlin are proposed next cities, working with local instructors and suitable nearby venues.

Try the sport. Meet the founders.
Then imagine a whole week at sea.

04 / FROM CURIOSITY TO ENQUIRY

German Meta ads + water-sport clubs → matching Grona page or local lesson RSVP → **request trip details** → personal founder fit call.

Show price, cabin details, a sample day and weather alternatives. Ask name, email and travel preferences; phone optional. Make the next step clear.

05 / THE €1,000 PILOT

Meta recruitment	**€500**
Partner lesson contribution	**€300**
Event materials + QR	**€100**
Creative reserve	**€100**

One Munich taster. Lesson costs assume co-funding or paid participation; partner agreement required. Existing tools and team time assumed.

06 / WHAT SUCCESS LOOKS LIKE

20 enquiries. 8 qualified.

14-day pilot ambitions, not forecasts: ≤€50 per enquiry and ≤€125 per qualified lead. Qualified = budget fit, Mallorca interest and plausible timing.

Track source, fit calls and bookings; lesson RSVPs separately. Persona, insight and targets are hypotheses; imagery is illustrative.

THE CAMPAIGN IN ONE THOUGHT

Try it here. Live it in Mallorca.
